

EPIGENETICS GUT KIT

Alpha Amylase	Fungus	Toluene	Phenylethylamine	L. Paracasei
Pepsinogen	Protozoa	Propionic acid	Spermine	L. Pentosus
Hydrochloric acid	Sporozoa	Butyric acid	Spermidine	L. Plantarum
Pepsin	Cestode	Brewers yeast	Ethanolamine	L. Reuteri
Intrinsic factor	Nematode	Bakers yeast	Methane	L. Rhamnosus
Carbonic anhydrase	Trematode	Lactose	CO ²	L. Salivarius
Rennin	H.Pylori	Casein	Hydrogen	B. Animalis Lactis
Bile salts	Campylobacter	Gluten	Salicylic acid	B. Bifidus
Glycochenodeoxy-cholic acid	Salmonella	Alpha Solamine	Phytic acid	B. Breve
Glycocholic acid	E.Coli	Hydrogen sulphide	Theobromine	B. Infantis
Taurochenodeoxy-chenolic acid	Clostridium	Cadaverine	Isothiocyanate	B. Lactis
Taurochenolic acid	Methanol	Putrascine	Uric acid	B. Longum
Lactase	Ethanol	Ethylmercaptans	Oxalic acid	B. Subtilis
Protease	Acetaldehyde	Methylmercaptan	a-Gliadin	Streptococcus Thermophilus
Lipase	Formaldehyde	Methylindole	L. Acidophilus	Saccharomyces Boulardii
Chymotrypsin	LPS	Indole	L. Brevis	Smart Probiotic
Trypsin	Acetic acid	Agmatine	L. Bulgaricus	Super 12 Probiotic
Amylase	Formic acid	Tyramine	L. Casei	Inulin (Jerusalem Artichoke)
Phospholipase A2	Ammonia	Histamine	L. Gasserie	Mastic Gum
Bacteria (composite)	Phenol	Tryptamine	L. Lactis	Psyllium

Digestive enzymes	
Pathogenic bacteria	
VOCs	
Naturally Occuring Food Toxins	
Probiotics	
Prebiotics
